

China Tang Restaurant The Dorchester Hotel, London

New restaurant in the basement conversion of Grade II listed Hotel

architects
project managers
cost consultants

JLA were appointed as the Architects and Interior Designers following a limited Competition to design and deliver a new restaurant space for the world renowned Hotel.

The brief was to provide an Asian themed restaurant with 120 covers, private rooms and main bar/dim sum area within a sensitive business Environment In developing the design we recognised the importance of retaining the strong ethos of the hotel, through a bold, traditional design that would complement the Art Deco opulence that is synonymous with the Dorchester.
